

# Hunter Park Wetland Restoration Project

---

## Goals of Project:

- Enhance Hunter Park with intentional natural areas.
- Reduce flooding of surrounding areas.
- Keep surrounding walking path and add additional paths for viewing of natural area.
- Keep recreational areas and ballfields intact.

## Benefits of Project:

- Wetlands ensure clean stormwater before entering streams.
- Passive community education highlighting native plants and wetlands.

## Project Timeline:

## Design Contractor:

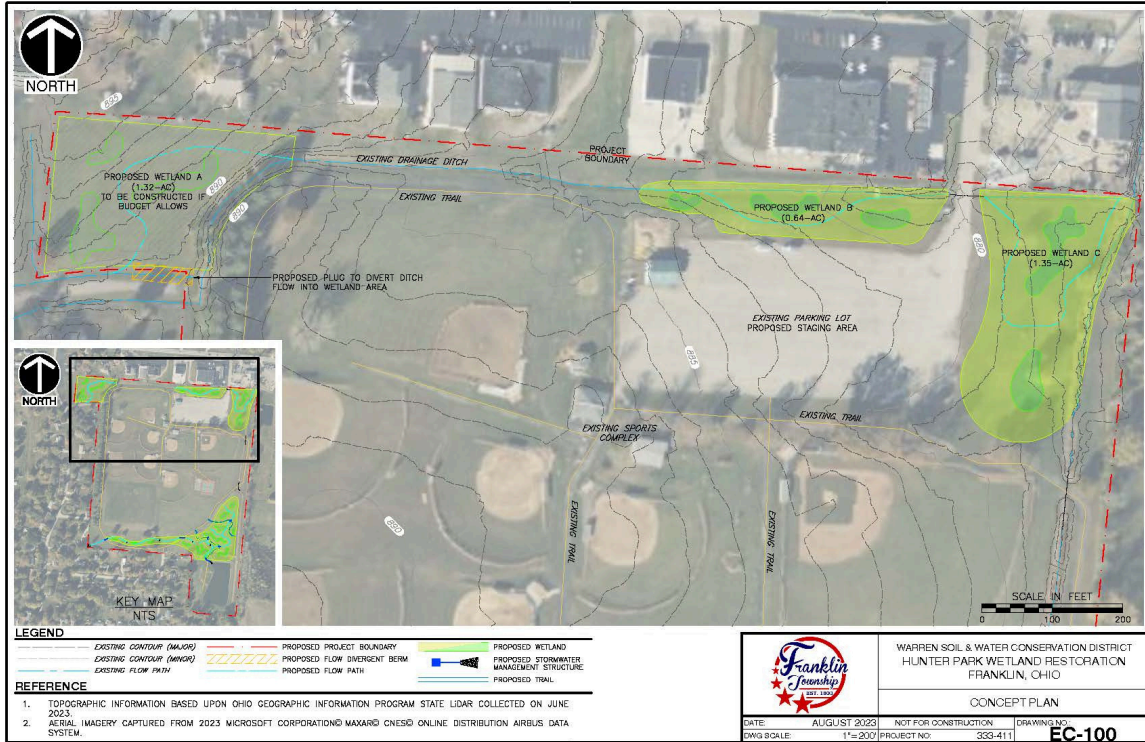

- Joel Thrash - Client Service Manager
- Danielle Thompson - Project Manager

## Warren County Soil and Water Conservation District Staff Team:

- Molly Conley - Director  
MConley@warrencountyohio.gov
- Cindy Meyer - Conservation Program Specialist  
CMeyer@warrencountyohio.gov
